

I've been a software engineer for about 5 years, and I am currently employed at Eagle View. I am technically skilled with a T-shaped proficiency. Such as having experience Linux, React Native, React js, Redux, Aws, PHP, object-oriented concepts, design patterns, MVC architecture, and design principles. In addition, I excel at leading teams and participating in them. In addition, I study at my own pace and apply what I've learned to solve challenges in the actual world.

### TECHNICAL EXPERIENCE

#### Software Engineer I

EagleView

Oct 2022 — Present

Bengaluru, Karnataka

- Recently, I upgraded a project from PHP 5.5 to PHP 8.2, building it from scratch and developing both the sandbox and production environments using Docker.
- I worked with various tools and technologies, including AWS, JIRA, Kibana, web technologies, CI/CD (Jenkins), Git/hooks.
- I implemented AWS services such as EFS, EBS, FSX, Active Directory, S3 storage, and . Additionally, I worked on ESRI products, involving the ArcGIS portal, server, and data store.
- In the sandbox, I developed a virtual box file for project deployment. I am also actively involved in React application development, writing unit test cases, and publishing packages on JFrog Artifactory, among other responsibilities.

#### Software Engineer

Radixweb
