Experience

Software Engineer

Radixweb

Oct 2021 - Present (11 months +)

At this position I am responsible for :

Scope of Work : Work is specially focused on application features or minor code changes in existing codes.

Code Quality : Write good, clean, well-tested code.

Software Practices : DRY(Don't Repeat Yourself) Principle.

Process Improvement : Improve debugging, , Bug Fixes, Technical Complexity, analysis skills, Maintainability, self-Learn Business Context and country of origin audience of the project.

Project Technology Knowledge : Beginner Level

Functional Understanding : General Project Scope Understanding & detailed understanding of own task.

Junior Software Engineer

Radixweb

Aug 2020 - Dec 2021 (1 year 5 months)

During the Training Period I have learned lots of technologies like PHP, Bootstrap, js, jquery, ajax, etc. In which all the technologies help me a lot in My Project. By attending this training helps me build confidence, and Increasing My learning speed, and change My learning style can help me be more efficient. In Radixweb I have spent 2 years, Here I have learned lots of things like API Development, API integration, Learning about SVN, GIT, GITHUB, and GitLab.

(OPS) is a huge system and work as last 13 year, there is no weakness I have found till now.

At the coding level, I found one thing that is missing at my level, As our system, we have set some standard protocols related to models files.

So, Always be maintained this standard using my skills, I have my own PHP command to create model files or list files of a specific table.

I have also reduced the line of code using the PHP autoloader function.

As I have learned about How to create a command in PHP or I have some misconceptions related to PHP command which have been solved by this task or clear by my mentors. this is my special achievement.

During this period, I had trained functions and oops concepts to the fresher batch.

Founder

ourkarigar

Sep 2018 - Jan 2021 (2 years 5 months)
