

I've been a software engineer for about 4 years, and I am currently employed at Eagle View. I am technically skilled with a T-shaped proficiency. Such as I'm having experience in several areas, including Linux, React js, Redux, Aws, PHP, object-oriented concepts, design patterns, MVC architecture, and design principles. In addition, I excel at leading teams and participating in them. In addition, I study at my own pace and apply what I've learned to solve challenges in the actual world.

TECHNICAL EXPERIENCE

Software Engineer I **Oct 2022 — Present**
EagleView *Bengaluru, Karnataka*

- Recently, I upgraded a project from PHP 5.5 to PHP 8.2, building it from scratch and developing both the sandbox and production environments using Docker.
- I worked with various tools and technologies, including AWS, JIRA, Kibana, web technologies, CI/CD (Jenkins), Git/hooks.
- I implemented AWS services such as EFS, EBS, FSX, Active Directory, S3 storage, and . Additionally, I worked on ESRI products, involving the ArcGIS portal, server, and data store.
- In the sandbox, I developed a virtual box file for project deployment. I am also actively involved in React application development, writing unit test cases, and publishing packages on JFrog Artifactory, among other responsibilities.

Software Engineer **Jan 2020 — Oct 2022**
Radixweb *Ahmadabad , Gujarat*

- Radixweb, a software firm and one of the products OnPrintshop.
- It is my responsibility to modify the software in accordance with the needs of the client.
- Write good, clean, well-tested code.
- Debugging, Bug Fixes, analysis skills, Maintainability
- Functional Understanding, General Project Scope Understanding & detailed understanding of own task.

Trainee Software Engineer **Apr 2019 — Jan 2020**
Tech Cato *Gwalior, Madhya Pradesh*

- In this company a lot of clients came here for developing their software or custom website, software, application for Android iOS and digital marketing, and many more.
- Here I and my team members develop websites in PHP.
